Once Used Always Wanted.

Thousands who have used John R. Dickey's Old Reliable Eye Water say so. Why? Because it cures sore or weak eyes or granulated lids without pain. Children like it because it feels good when applied. Sold by Wight & Bro. for 25 cts. Money back if you don't like it.

Pity and Beauty

The most beautiful thing in the world is the baby, all dimples and joy. The most pitiful thing is that same baby, thin and in pain. And the mother does not know that a little fat makes all the difference.

Dimples and joy have gone, and left hollows and fear; the fat, that was comfort and color and curve—all but pity and love—is gone.

The little one gets no fat from her food. There is something wrong; it is either her food or food-mill. She has had no fat for weeks; is living on what she had stored in that plump little body of hers; and that is gone. She is starving for fat; it is death, be quick!

Scott's Emulsion of Cod Liver Oil is the fat she can take; it will save her.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you.

Florence, S. C., Nov. 26, 1900. I was first advised by our family physician in Charleston to use Teetina with our baby when she was but a very young infant, as a preventive of colic and to warm and sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from the dangers that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their babies quiet.

The closing hours of the Legislature were unusually quiet. No wild scenes and the turning back of the clock marked its adjournment, and except for a controversy in the Senate over the appropriation bill, the adjournment would have been devoid of excitement.
